Dynamis

Dynamis is a course for those who want to take their homeopathy deeper and further.

"Studying with Jeremy is where materia medica and philosophy - and also life - get woven together in this most beautiful way. The most important thing is not only that you walk away with more information in your head or more remedies in your pocket: it's coming away with a sensation inside of the interconnectedness of everything. Laurie Dack, Core Faculty, Northwestern Academy of Homeopathy

I found this to be a great course. It has given me several new ways of looking at cases going forward. Jeremy is an excellent lecturer with a wealth of knowledge and experience behind him. Q-Rep is an invaluable tool - something I will use regularly in future case analysis. I would love to do some more lessons with Jeremy - particularly looking at more cases using the new methods of analysis and synthesis which we have learnt."

Bronwyn Wymer

Dear colleague and friend,

I would like to invite you to join the Dynamis School for Advanced Homeopathic Studies in Ireland. I have been teaching this course for the last 30 years and I know from my own experience, and from the feedback of thousands of students worldwide, that you will enjoy and benefit greatly from joining us. Let me explain why...

My aim in this course is to help you achieve a higher degree of success and enjoyment in your practice, and to develop a homeopathic way of living. The real making of a homeopath begins with a deeper understanding of philosophy, and you may be certain there is much more to homeopathic philosophy than that which you learn in basic education. But Dynamis is not only about theory. Everything we study will have practical ramifications and will help you to solve cases and gain greater confidence in yourself as a homeopath. The results will show in a more successful practice.

I love teaching homeopathy, but most of all I love teaching Dynamis. The continuity of teaching one group over a long period of time makes all the difference. I love teaching likeminded adults motivated by a common desire. It is my pleasure to share everything I've learnt over the years, and it is my privilege to learn from my students.

I enjoy the good laughs, the friendships, and the difficult questions in class. I love seeing the transformations as roots of understanding grow into trees of knowledge. I love learning more about homeopathy, life and the universe from every lecture. I love seeing a diverse group of homeopaths become a family of friends.

This will be my third Dynamis in Ireland, and if it's anything like the previous two then to be sure to be sure it's going to be really good. Since the last time I taught in Ireland I have been treating AIDS in Africa for over 10 years, finished my 38th classical proving, written the second edition of 'The Dynamic Materia Medica of Syphilis' and Published 'Helium' 'Neon and soon 'Argon'. The Q Rep has become a big hit worldwide. All this is going to make for an even better, richer more enjoyable course. I look forward to seeing you there.

Jeremy Sherr

This course is for every level of homeopath, from second year to advanced. It makes no difference which level you are at now
- I promise you will gain a lot and have some great fun in the process.

Over the course of the three years in Dynamis we will develop **greater insight into the nature of health, disease, and cure.** Using a variety of methods, we will learn to synthesise a seemingly unconnected bunch of symptoms into a comprehensive, logical totality. We will learn to perceive what is curative in remedies without the need for memorising keynotes.

We will improve our choice of rubrics and remedies by refining our critical thinking. We will discuss case taking, pre-analysis, analysis and repertorisation techniques. We will study lots of materia medica, old and new, including the Dynamis provings. We will investigate anatomy, physiology, pathology and chemistry from a homeopathic point of view. **We will learn to listen to simple language and to the silences in between.**

We will study obstacles to cure, susceptibility, potency

selection, similar and dissimilar diseases, acute and chronic, epidemics and chronic disease. We will learn remedy relationships, remedy reaction and second prescription. We will learn to critically evaluate case results through the long-term follow-up of live patients, increasing our understanding of the second prescription and case management.

We will differentiate aggravations, healing crisis, acute diseases and acute exacerbations. We will achieve a clearer understanding of classical miasmatic theory and its practical application. We will relate and compare our studies to other philosophies, from four elements to Chinese medicine to Kabala and Taoism and homeopathic teachers old and new. All studies will be enhanced by cases.

The aim of the Dynamis program is to potentise those who participate into deeper knowledge and understanding, help them gain practical skills and confidence and ultimately achieve better results in clinic. The Dynamis student develops an advanced understanding of homeopathic principles that can be applied in practice. In essence, this means **learning the science of homeopathy and letting it grow into an art, and eventually into a way of living.** Dynamis is meant for the serious homeopath, one who strives to be all they can be in homeopathy and is ready to do what it takes to get there. The course

does not offer short cuts and easy fixes. Dynamis is not a series of seminars, but a **comprehensive and interconnected curriculum**, weaving a tapestry of philosophy, materia medica and cases into a strong practical foundation while exploring exciting new territories.

The live clinics are each Monday on the course and are open to guests. If you are unable to do the entire course you may still like to gain the clinical credit by attending the clinic days.

“In pursuit of learning · every day something is acquired. · In pursuit of Tao · every day something is dropped. · Less and less is done · until non-action is achieved ”

Lao Tzu, Tao Te Ching (chapter 48)

THE PROVING

An adventure into the unknown, **the proving is a unique opportunity to learn homeopathy directly from the source.** Jeremy Sherr was the first to redevelop the science and art of provings. In 1994 he published the first edition of *The Dynamics and Methodology of Homeopathic Provings*, which has become a standard textbook for schools and the basis for proving guidelines worldwide. The proving takes place in the second year and participation is voluntary.

"Being involved in the proving was incredible; how it was conducted and the minute, painstaking attention to detail."

Jo Hale, UK

"A teacher of life. An experience I was fortunate to have on my path. Homeopathy simply and beautifully taught."

Sheila Bridge, Ireland

"Jeremy is one of the best teachers of Homeopathy in the world. All practitioners should experience his lively presentation of Philosophy, Materia Medica and Taoist Wisdom at least once in their lives!"

Eric Sommermann, Northwestern Academy of Homeopathy,
Founding member of NASH 1.

CERTIFICATE DIPLOMA

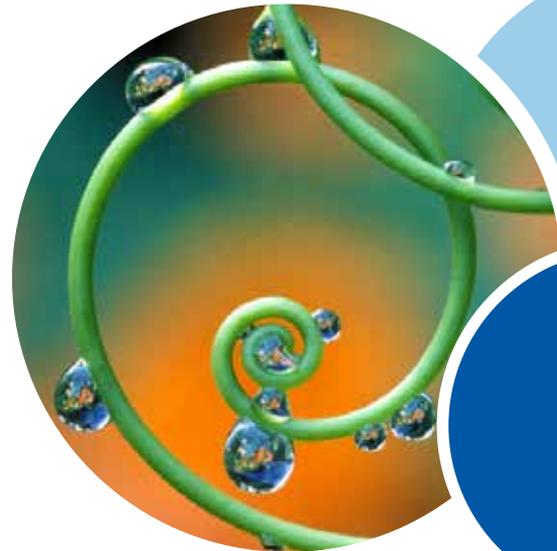

Depending on individual desire and capacity, Dynamis students receive either a: **Diploma, Certificate of Attendance or Clinical Credit**. To receive the Diploma you must attend at least 80% of the course and turn in all homework assignments.

To be eligible to receive a Diploma, a student must additionally:

1. Complete three major projects, one of which may include participation in the proving as a prover or supervisor.
2. Be a graduate of an approved homeopathic college, a member of an approved homeopathic register, or a licensed healthcare practitioner who has undertaken essential homeopathic studies.
3. Attend the entire Graduation session of the course. Once these basic eligibility requirements are met, the Diploma will be awarded based on individual merit and continual assessment in class. A Diploma from the Dynamis School gives a recipient the right to use the title Practitioner of Classical Homeopathy and may use the post-nominal letters PCH .

The Dynamis School is suited to homeopathic practitioners of any level of experience, and to students with two years of previous study. Other qualified therapists who have a solid understanding of the fundamentals and practice of homeopathy are eligible.

Exceptions to this policy may be made based on individual circumstances and merit so that prospective students who do not have this background but wish to attend the course are invited to apply.

Dynamis Ireland will be taught over **3 years** with the group meeting three times each year. **Each session is 4 days** in length, Friday through Monday. Last day is clinic and open to other students. **Graduation is held the following year** and this is a residential week.

TESTIMONIALS

“ I had the good fortune to attend the Dynamis post graduate course the last time it was held in Ireland, 2002 -2005. I found Jeremy to be a superb teacher. His lectures on homeopathic philosophy were inspiring, & he imparted to us many new insights on existing Material Medica, as well as introducing us to his own new provings. We learned many “ new” remedies, proved by Dynamis, such as Pacific Salmon, Chocolate & Hydrogen. The Course also included a clinic day with every module, where we could put into practice our new-found knowledge. I can honestly say that doing Jeremys post grad course greatly enhanced my homeopathic practice & the content of my own lectures. I would highly recommend it! ”

Bernie Smith

“ Jeremy’s course is built upon a deep appreciation of Hahnemannian principles and he shows us how to apply these in the real-life setting of the clinic/consultation room. He answers many of the questions I have struggled with about how to bridge philosophy with practice. When they come together beautifully like this, homeopathy is so exciting.”

Jeremy Sherr

Jeremy Sherr was born in South Africa and grew up in Israel. He began formal homeopathic study in 1980 at the College of Homeopathy, London. He simultaneously completed a degree in Acupuncture at the International College of Oriental Medicine. Though he practices homeopathy exclusively, his knowledge of Chinese Medicine shines through his homeopathic thinking.

Jeremy has taught in most of the British schools of homeopathy and began the Dynamis School in 1986. His school is the longest running post-graduate homeopathy course in the world. He has taught the Dynamis curriculum in England, Ireland, Holland, Switzerland, Norway, Finland, Denmark, Israel, Canada, and the United States. Jeremy has lectured in Spain, Italy, Germany, Bulgaria, China, Russia, India, Japan, South Africa, Mexico New Zealand and Australia. He maintains busy practices in London, Tel Aviv, and New York.

He was awarded a fellowship from the Society of Homeopaths in 1991 and a Ph.D. from Medicina Alternativa and from Pioneer University. He is a member of the North American Society of Homeopaths and the Israeli Society for Classical Homeopathy. Jeremy is an honorary professor at Yunan Medical College, Kunming, China and an Associate Professor at University Candegabe for Homeopathy, Argentina.

He is the author of numerous homeopathic books and journal articles and has proved over 35 new homeopathic remedies. His books the Dynamics and Methodology of Homeopathic Provings and Dynamic Materia Medica: Syphilis are homeopathic bestsellers and are used as textbooks in many schools. He is currently working on a series of books on the Noble gases of which 'Helium' and 'Neon' have just been published, to be followed by Argon and Krypton. He is also the author of Q-Rep, the Repertory of Mental Qualities.

During the last 8 years Jeremy has been living and working in Tanzania with his wife Camilla, also a homeopath, on their voluntary project 'Homeopathy for Health in Africa' treating AIDS patients and researching the genus epidemicus remedies of AIDS.

Camilla Sherr (PCH, FSHom.)

Camilla who will be a guest lecturer for two of the Dynamis weekends graduated from the Finnish Institute of Homeopathy in 1994. In 1996 she moved to London to study in the Dynamis School for the two-year post-graduate course.

In 1997 Camilla travelled to Honduras with a charity called 'Homeopathy for Change'. She volunteered there for three months working in the poor barrios and teaching local doctors to use homeopathy. In 1998-2000 she taught the Dynamis School program in Finland and conducted her first full proving of Scandium. In 2012-2015 she taught Dynamis again in Finland and conducted the proving of Honey.

Apart from Finland she has lectured in the UK, Denmark, Norway, Bulgaria, USA, Malta, Kenya, Tanzania, Swaziland and Israel. In 2002 she edited eight provings for the book "Dynamic Provings - Volume 2".

Camilla has been a prover in almost twenty Dynamis provings. She has published articles in European and American journals.

In 2009 she and her family moved to Tanzania in order to treat people living with HIV/AIDS. She is the co-founder and director of Homeopathy for Health in Africa (HHA), an NGO that offers homeopathic health care for the poor. She established a kindergarten for the children of AIDS-patients, which is still operating and run by a Finnish charity. In 2012 HHA won an award on a trial study she designed and managed, where abdominal surgery patients were treated with homeopathy.

In 2016, Camilla was awarded a Fellow of the Society of Homeopaths (FSHom) in the UK title, for her work in Africa. She is married to Jeremy and the mother of their children Ike (18), Noga (12) and Amy (10).
